

As of June 1st, 2011

We recycle plastics 1 through 6!

1 through 6 household plastics are to be placed together into 1 blue box

Commingled Plastic & Metal Food & Beverage Containers

All plastics are to be placed into the same blue box containers.

All grocery bags are to be placed into one bag and tied.

Glass bottles and jars are to be placed in their own blue box or container.

Make sure to separate glass from commingled plastics

All aseptic and gable tops are to be placed in the same blue box as commingled plastics

All cardboard, box board & paper is to be placed in their own blue box or container

Recycling Program

Aseptic & Gable Tops

Aseptic & gable top containers are the waxed juice box containers and the juice containers, such as orange juice or milk containers that come to a peak at the top of the jug.

These containers are to be rinsed out and placed into the commingled blue box container.

Make sure to rinse out **all** recycled containers before placing them in the blue box

Make sure that all cardboard & boxboard is broken down before they are placed curbside

Please contact Municipal Waste & Recycling Consultants should you have any questions on this recycling program.
